

Cold Black Hjerte

Black Hjerte with cold brew

Our classic Black Hjerte Coffee Liqueur family recipe, made with cold brew. We blend our special method brew with a corn based vodka, add a touch of honey, brown sugar and real vanilla bean.

Tasting notes:

Full bodied, coffee forward, with earthy smoky notes from the beans. The corn based vodka imparts a richness, and the long finish is completely smooth. At 50 proof it packs a punch, and is delicious on its own, or mixed with any coffee based cocktails.
